Subject : Verizon Partner Solutions Industry Letter: West Haverstraw NY 5E Switch Retirement

PLEASE NOTE:

- All references to the West Haverstraw NY 5E switch are associated with CLLI code WHVRNYWHDS0 and will not be repeated throughout this letter.
- All references to the Pleasantville NY DMS switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this letter.

As set out in the Verizon New York LLC Public Notice of Network Change under Rule 51.329(a), dated July 12, 2023, on or after March 1, 2024, the West Haverstraw NY 5E switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information:

The Exchange Codes (NXXs) in Numbering Plan Areas (NPA) 914 currently residing in the West Haverstraw NY 5E switch (see list in Table B below) will be moved to the Pleasantville NY DMS switch (PSVLNYPVPSA) (see details in Table A below).

The native NPA NXXs belonging to the West Haverstraw NY 5E switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Pleasantville NY DMS switch. This will occur on or after March 1, 2024.

Network Changes and Trunk Rearrangements:

The Pleasantville NY DMS switch will be the recipient office of traffic migrated from the West Haverstraw NY 5E switch. Traffic bound for the code listed in Table B will be delivered via the White Plains 08T Tandem (WHPLNYWP08T intra-lata SHA / WHPLNYWP08T inter-lata FG Access SHA).

After all traffic is migrated off of the West Haverstraw NY 5E switch, this switch will be retired and removed from the network.

CLECs, IXC, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Pleasantville NY DMS switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the West Haverstraw NY 5E switch will be required to reposition the codes to the Pleasantville NY DMS switch.

All ASRs for the Pleasantville NY DMS switch must be received no later than January 1, 2024 to provide sufficient time to migrate the traffic described above. All traffic must be moved by March 1, 2024 per LERG. All ASRs for the Pleasantville NY DMS switch must carry the project code of **WHVRNYWHD\$0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the West Haverstraw NY 5E switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
