

6929 N. Lakewood Avenue Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

November 1, 2022

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson Global Data Network Engineering Verizon Wireline Network Operations 13100 Columbia Pike, Floor 5 Room 505 Silver Spring, MD 20904 410-375-9777

John Dunne Senior Manager – Global Data Network Engineering Verizon Wireline Network Operations 999 West Main Street, 4th Floor Freehold, NJ 07728 732-683-5126

Implementation Date: On or after January 3, 2023

Planned Network Change(s) will occur at the following locations in Pennsylvania:

The second of th		
VERIZON CENTRAL OFFICE	ADDRESS	CLLI
BEAR CREEK, PA DMS10	6400 Bear Creek Boulevard	BRCKPAESDS0
SWITCH	Bear Creek, PA 18602	
SCRANTON, PA DMS100	121 Adams Avenue	SCTNPASCDS1
SWITCH	Scranton, PA 18503	

This notice may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures.

PLEASE NOTE:

- All references to the Bear Creek, PA DMS10 switch are associated with CLLI code BRCKPAESDS0 and will not be repeated throughout this notice.
- All references to the Scranton, PA DMS100 switch are associated with CLLI code SCTNPASCDS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Bear Creek, PA DMS10 switch, located at 6400 Bear Creek Boulevard, Bear Creek, PA 18602, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Scranton, PA DMS100 switch, located at 121 Adams Avenue, Scranton, PA 18503. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Scranton, PA DMS100 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Bear Creek, PA DMS10 switch will be required to reposition the codes to the Scranton, PA DMS100 switch.

All ASRs for the Scranton, PA DMS100 switch must be received no later than December 2, 2022 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Bear Creek, PA DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Bear Creek, PA DMS10 switch (on or after January 3, 2023). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Bear Creek, PA DMS10 switch to reflect the Scranton, PA DMS100 switch as the new home switch. All ASRs for the Scranton, PA DMS100 switch must carry the project code of BRCKPAESDS0.
