# ISP Communication

---

**Distribution:** Verizon West ISPs  
**Distribution Date:** February 17, 2006  
**Communication Number:** 2006.08

**Subject: DSL Tech Install - West**

**Description:** Effective February 20, 2006, Verizon will no longer offer inside wire work associated with DSL. The technician installation option will no longer be available in ISP Members Only in the Verizon West territory. ISPs can choose any vendor or contractor to perform the inside wire and jack installation.
