

# International Regional Calling Plan

## Great rates on calls to the region of the world you call the most

Verizon offers an additional way to save on international calling! For a fixed monthly fee of just \$3.00, our International Regional Calling Plan offers discounted per-minute rates to the specific region of the world your business calls the most: **Asia-Pacific, Europe, Latin America and the Caribbean** or the **Middle East**.

If you subscribe to a domestic long distance calling plan from Verizon and consistently have call volume to a particular part of the world, one of our four International Regional Calling Plans will allow you to take advantage of our lowest calling plan rates to countries in your selected region.

### The regional calling plan with global reach

When you choose the International Regional Calling Plan, your business will benefit from:

- **Discounted Rates:** Direct-dial rates to the countries in your chosen region are the lowest calling plan rates that Verizon offers for those destinations. Plus calls to countries outside of your region are also highly competitive.
- **One Flat Rate to Each Country:** Each country within our four plan regions has its own 24-hour-a-day, seven-day-a-week per-minute rate.

### International Regional Calling Plan pricing

The following chart shows a sampling of the per-minute rates for each of our four International Regional Calling Plans:

#### Asia-Pacific Calling Plan<sup>1</sup>
