Re: Integration of Verizon West (former GTE region) Collocation Application process with Verizon East (former Bell Atlantic region)

Effective May 28, 2002, Verizon Wholesale Services will be centralizing the receipt and processing of all collocation application documentation to one location. All forms and documentation requesting new space, or changes to existing arrangements that add/reduce current space, including any remittances for fees due should be forwarded to the new address. Please note that official application processing will not begin until both a completed application and the appropriate application fees are received. Applications received will receive an Acknowledgment letter of receipt. All existing Verizon practices regarding collocation remain the same, until further notice.

The address of this location to send all documentation on and after May 28th, which is currently utilized for Verizon East contact, is:

Verizon Wholesale Services
Collocation Applications
125 High Street, Rm. 509
Boston MA 02110
Collocation.applications@verizon.com

If you have any questions regarding the changes in this correspondence, please contact your Verizon Collocation Program Manager.
