

**Verizon**  
Wholesale Services  
600 Hidden Ridge  
Irving, TX 75038-3897

February 15, 2001

Dear Customer:

We are pleased to invite you to attend a customer workshop on SONET based Access products. This workshop is part of an ongoing series of workshops conducted by Verizon Wholesale Markets on topics of concern to our customers. Due to a large number of requests, we will hold two workshops.

The first workshop will be held on Thursday, March 15, in the 23<sup>rd</sup> floor Auditorium at Verizon's corporate headquarters, 1095 Avenue of Americas, NY, NY. The second workshop will be on Tuesday, March 20<sup>th</sup> in the East Wing Auditorium, Verizon headquarters, 600 Hidden Ridge, Irving, Texas (Metro Dallas). A continental breakfast will be served at 8:30 AM. The seminar is scheduled to commence at 9:30 AM and adjourn by 3:30 PM. It is not necessary to attend both workshops.

Each workshop will consist of two sessions. The morning session will focus on an overview of the Verizon East SONET based products - IntelliLight®, including definitions, diagrams, rate structuring, ordering & provisioning, as well as future products. The afternoon session will provide a complete overview of the Verizon West SONET products. Dan Gill will be hosting the morning session, and Lester Nokes will be hosting in the afternoon.

You are requested to complete the attached workshop registration form and fax it to Lisa Menadue at (617) 743-3739 as soon as possible. If you have any questions, please do not hesitate to contact your account manager.

Sincerely,

**Verizon Product Management**
