Dear Customer:

Subject: TEMECULA CALIFORNIA CENTRAL OFFICE CONVERSION

To meet the growing demand for telephone service, GTE is installing new switching equipment in Temecula on September 30, 2000. Because of this service upgrade, customers will be receiving a new seven-digit phone number(s) starting with the 296 or 719 prefix.

In addition, the area code will be changing to 951 on February 12, 2000 when the 909 Area Code splits into the 909 and 951 to meet the demand for new telephone numbers. There will be a seven-month permissive dialing period.

Please see your account manager for procedures for this conversion.

Sincerely,

A handwritten signature in cursive script that reads "Beth Mullens". The signature is written in black ink and is positioned below the word "Sincerely,".

Beth Mullens
