**System Release Notification**

**Bulletin Number:** A07-0059  
**Subject:** System Enhancement Release  
**Date of Bulletin:** 01/30/2008  
**Report:** 2<sup>nd</sup> Notification  
**Systems Impacted:** CSG, UOM, and NDM  
**Area Impacted:** Access  
**Process Affected:** Pre-Order/Ordering/System Accessibility  
**Region:** Verizon Footprint  
**Documentation Impacted:** N/A  
**Date Effective:** 03/17/2008

**Details:**

Please note that CSG (Carrier Services Gateway), UOM (Unified Ordering Model), and NDM (Network Data Mover) will be unavailable from 7:00 PM ET on Friday, March 14, 2008 until 7:00 AM ET Monday, March 17, 2008 in order to implement system enhancements.

System enhancements consist of new and modified edits and validations, including, but not limited to the following:

- New field edits and/or deletions in support of the ASOG 36 Industry Release
- New edits and modification of existing edits in support of REQTYP changes for TLS (Transparent LAN Service)
- New edits to support FiberConnect
- New edits to support ETAG (Ethernet Transport Aggregation)

The new edits can be accessed by going to the following link, then clicking on the link for the Business Rules for the type of ASR method of interest to you. You may then choose **36** under the ASR Version drop down menu and the edits will be located under “Related Documents and Links”
