1:00 pm

Coordinator: Welcome and thank you for standing by. At this time, all participants' lines are open. Please mute your lines when not speaking. If you do not have a mute facility, you may press star-six to mute or unmute your phone.

This call is being recorded. If you have any objections, you may disconnect at this point.

Now, I'll turn the meeting over to your host, Mr. Frank Malecki. You may begin.

Frank Malecki: Thank you very much, and welcome everyone to the (OS) interface change management meeting for June.

We actually have a short agenda for today. I've one department update to provide, and that will be done by Jagdish. Jagdish, are you there?

Jagdish Nimbalkar: Yes, hi Frank. This is Jagdish. I'm here.

So from the wholesale local team, we are working towards the June release, and select test environment will be updated on Thursday, June 13. We have a local production release on Sunday, June 16. And all the June release related call will be updated and will be ready in production next Monday.

If anybody needs testing, please reach out to us using (Hugewell CD) support team email address, and we're happy to help. That's the only update I have, Frank.

Frank Malecki: All right, Jagdish. Thank you very much. Anyone have any questions?

Okay then, that's all I have for today. I'll go write the roundtable if anybody has any issues or questions that you like to bring forward.

All right. Well, thank you everybody for attending today's call. Have a good afternoon and a good week.

Woman: Thanks, Frank.

Jagdish Nimbalkar: Thank you, Frank.

Coordinator: Thank you, participants. And that concludes today's call. Thank you all for joining. You may now disconnect.

END
