Tulsa, OK 74117

**SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)**

**NOTE:** This Notice replaces Verizon Pennsylvania's previously-filed Public Notice on January 23, 2020 seeking an on or after August 1, 2020 implementation date. With this re-filing, Verizon Pennsylvania advances the implementation date to on or after June 1, 2020.

February 21, 2020

**Carrier:** Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

**Contact:** For additional information on these planned network changes, please contact:

Lisa Thompson  
Global Data Network Engineering  
Verizon Wireline Network Operations  
13100 Columbia Pike, Floor 5 Room 505  
Silver Spring, MD 20904  
443-862-0212

John Dunne  
Senior Manager – Global Data Network Engineering  
Verizon Wireline Network Operations  
2147 Route 27  
Edison, NJ 08817  
732-593-4003

**Implementation Date:** On or after June 1, 2020

**Planned Network Change(s) will occur at the following locations in Pennsylvania:**

Verizon Central Office	Address	CLLI
MIDDLETOWN PA DMS100 Switch	135 W. Main Street Middletown PA 17057	MDTNPAMIDS0
HARRISBURG PA CS2K Switch	210 Pine Street Harrisburg PA 17101	HRBGPAHAPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Middletown PA DMS100 switch are associated with CLI code MDTNPAMIDS0 and will not be repeated throughout this notice.
- All references to the Harrisburg PA CS2K switch are associated with CLI code HRBGPAHAPS0 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Middletown PA DMS100 switch, located at 135 W. Main Street, Middletown PA 17057, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Harrisburg PA CS2K switch, located at 210 Pine Street, Harrisburg PA 17101. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Harrisburg PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Middletown PA DMS100 switch will be required to reposition the codes to the Harrisburg PA CS2K switch.

All ASRs for the Harrisburg PA CS2K switch must be received no later than May 1, 2020 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Middletown PA DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Middletown PA DMS100 switch (**on or after June 1, 2020**). This will serve to guide interconnect re-routes of traffic for the three (3) native codes currently served by the Middletown PA DMS100 switch to reflect the Harrisburg CS2K switch as the new home switch. All ASRs for the Harrisburg PA CS2K switch must carry the project code of **MDTNPAMIRP0**.
