Subject : Verizon Partner Solutions Industry Letter: Pottstown PA 5ESS Switch Retirement

PLEASE NOTE:

- All references to the Pottstown PA 5ESS switch are associated with CLLI code PTTWPAPTDS0 and will not be repeated throughout this letter.
- All references to the Market PA C20 switch are associated with CLLI code PHLAPAMKPS2 and will not be repeated throughout this letter.

As set out in the Verizon Pennsylvania LLC Public Notice of Network Change Under Rule 51.329(a), dated October 13, 2021, on or after October 1, 2022 the Pottstown PA 5ESS switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 610 currently residing in the Pottstown PA 5ESS switch (see list in Table B below) will be moved to the Market PA C20 switch (see details in Table A below).

The eleven (11) native NPA NXXs belonging to the Pottstown PA 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Market PA C20 switch. This will occur on or after October 1, 2022.

Table A

	From	To	
Entity	Pottstown PTDS0	Market MKPS2

610	495	EOC	ROYERSFORD
610	792	EOC	ROYERSFORD
610	948	EOC	ROYERSFORD

Network Changes and Trunk Rearrangements:

The Market PA C20 switch will be the recipient office of traffic migrated from the Pottstown PA 5ESS switch. Traffic bound for the codes listed in Table B will be delivered via the Market PA 90T Tandem (PHLAPAMK90T).

After all traffic is migrated off the Pottstown PA 5ESS switch, this switch will be retired and removed from the network.

CLECs, IXC, IECs, wireless carriers, and paging carriers; will need to secure new trunk groups built to the Market PA C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Pottstown PA 5ESS switch will be required to reposition the codes to the Market PA C20 switch.

All ASRs for the Market PA C20 switch must be received no later than August 23, 2022 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by October 1, 2022. All ASRs for the Market PA C20 switch must carry the project code of **PTTWPAPTDS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXX codes subject to the retirement of the Pottstown PA 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
