PLEASE NOTE:

- All references to the Ivyridge PA EWSD switch are associated with CLLI code PHLAPAIVDS0 and will not be repeated throughout this notice.
- All references to the Market PA CS2K switch are associated with CLLI code PHLAPAMKPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Ivyridge PA EWSD switch, located at 4334 Terrace Street, Philadelphia, PA 19128, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Market PA CS2K switch, located at 900 Race Street, Philadelphia, PA 19107. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Market PA CS2K switch or augment existing trunk groups to that switch. Carriers that are code holders for access connectivity in the Ivyridge PA EWSD switch will be required to reposition the codes to the Market PA CS2K switch.

All ASRs for the Market PA CS2K switch must be received no later than August 8, 2020 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Ivyridge PA EWSD switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Ivyridge PA EWSD switch (**on or after September 1, 2020**). This will serve to guide interconnect re-routes of traffic for the twelve (12) native codes currently served by the Ivyridge PA EWSD switch to reflect the Market PA CS2K switch as the new home switch. All ASRs for the Market PA CS2K switch must carry the project code of **PHLAPAIVDS0**.
