

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

May 20, 2020

**Carrier:** Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Harvey Salzberg  
Global Engineering and Operations  
Verizon Wireline Network Operations  
140 West Street, 5th Floor  
New York, NY 10007  
212-519-4852

John Dunne  
Manager – Global Network Engineering and Operations  
Verizon Wireline Network Operations  
999 West Main St., 2<sup>nd</sup> Floor  
Freehold, NJ 07728  
732-683-5126

**Implementation Date:** On or after December 1, 2020

**Planned Network Change(s) will occur at the following locations in New York:**

Verizon Central Office	Address	CLLI
Mount Vernon NY DMS Switch	45 South 6th Avenue Mount Vernon, NY 10550	MTVRNYMVDS0
Pleasantville NY CS2K Switch	465 Marble Avenue Pleasantville, NY 10570	PSVLNYPVPSA

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Mount Vernon NY DMS switch are associated with CLLI code MTRVRYMVDS0 and will not be repeated throughout this notice.
- All references to the Pleasantville NY CS2K switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Mount Vernon NY DMS switch, located at 45 South 6th Avenue, Mount Vernon, NY 10550, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pleasantville NY CS2K switch, located at 465 Marble Avenue, Pleasantville, NY 10570. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Mount Vernon NY DMS switch will be required to reposition the codes to the Pleasantville NY CS2K switch.

All ASRs for the Pleasantville NY CS2K switch must be received no later than October 1, 2020 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Mount Vernon NY DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Mount Vernon NY DMS switch (**on or after December 1, 2020**). This will serve to guide interconnect re-routes of traffic for the ten (10) native codes currently served by the Mount Vernon NY DMS switch to reflect the Pleasantville NY CS2K switch as the new home switch. All ASRs for the Pleasantville NY CS2K switch must carry the project code of MTRVRYMVDS0.
