PLEASE NOTE:

- All references to the Baldwin PA 5ESS switch are associated with CLLI code PHLAPABADS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Baldwin PA 5ESS switch, located at 3429 N. 17th Street, Philadelphia, PA 19140, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Market PA CS2K switch, located at 900 Race Street, Philadelphia, PA 19107. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Market PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Baldwin PA 5ESS switch will be required to reposition the codes to the Market PA CS2K switch.

All ASRs for the Market PA CS2K switch must be received no later than February 1, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Baldwin PA 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Baldwin PA 5ESS switch (**on or after March 1, 2021**). This will serve to guide interconnect re-routes of traffic for the ten (10) native codes currently served by the Baldwin PA 5ESS switch to reflect the Market PA CS2K switch as the new home switch. All ASRs for the Market PA CS2K switch must carry the project code of **PHLAPABADS0**.
