

Verizon
6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

July 22, 2020

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, PA 08817
732-593-4003

Implementation Date: On or after **April 1, 2021**

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
Eddington 5ESS Switch	2920 Forrest Avenue Eddington, PA 19020	EDTNPAEDDS0
Fort Washington CS2K Switch	1050 Virginia Drive Fort Washington, PA 19034	FTWSPAFWPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Eddington PA 5ESS switch are associated with CLLI code EDTNPAEDDS0 and will not be repeated throughout this notice.
- All references to the Fort Washington PA CS2K switch are associated with CLLI code FTWSPAFWPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Eddington 5ESS switch, located at 2920 Forrest Avenue, Eddington, PA 19020, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Fort Washington CS2K switch, located at 1050 Virginia Drive, Fort Washington, PA 19034. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless,

and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Fort Washington PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Eddington switch will be required to reposition the codes to the Fort Washington PA CS2K switch.

All ASRs for the Fort Washington PA CS2K switch must be received no later than March 1, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Eddington PA 5ESS switch, prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Eddington PA 5ESS switch (**on or after April 1, 2021**). This will serve to guide interconnect re-routes of traffic for the seven (7) native codes currently served by the Eddington PA 5ESS switch to reflect the Fort Washington PA CS2K switch as the new home switch. All ASRs for the Fort Washington PA CS2K switch must carry the project code of **EDTNPAEDDS0**.
