

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

September 1, 2020

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

John Dunne
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
999 W Main St., 04 FLR, Freehold, NJ USA 07728
732-683-5126

Implementation Date: On or after March 1, 2021

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Berne NY DMS10 switch	North Side Route 43 Berne, NY 12023	BERNNYBRDS0
Albany NY Packet End Office switch	158 State Street Albany, NY 12207	ALBYNYSSPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Berne NY DMS10 switch are associated with CLLI code BERNNYBRDS0 and will not be repeated throughout this notice.
- All references to the Albany NY Packet End Office (PEO) switch are associated with CLLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Berne NY DMS10 switch, located at North Side Route 43, Berne, NY 12023, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Albany NY PEO switch, located at 158 State Street, Albany, NY 12207. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Berne NY DMS10 switch will be required to reposition the codes to the Albany NY PEO switch.

All ASRs for the Albany NY PEO switch must be received no later than January 15, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Berne NY DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Berne NY DMS10 switch (**on or after March 1, 2021**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Berne NY DMS10 switch to reflect the Albany NY PEO switch as the new home switch. All ASRs for the Albany NY PEO switch must carry the project code of BERNNYBRDS0.
