

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

September 1, 2020

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

John Dunne
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
999 W Main St., 04 FLR, Freehold, NJ USA 07728
732-683-5126

Implementation Date: On or after March 1, 2021

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Cambridge NY DMS10 switch	South Side Main Street Cambridge, NY 12816	CMBRNYCMDS0
Albany NY Packet End Office switch	158 State Street Albany, NY 12207	ALBYNYSSPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Cambridge NY DMS10 switch are associated with CLI code CMBRNYCMDS0 and will not be repeated throughout this notice.
- All references to the Albany NY Packet End Office (PEO) switch are associated with CLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Cambridge NY DMS10 switch, located at South Side Main Street, Cambridge, NY 12816, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Albany NY PEO switch, located at 158 State Street, Albany, NY 12207. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Cambridge NY DMS10 switch will be required to reposition the codes to the Albany NY PEO switch.

All ASRs for the Albany NY PEO switch must be received no later than January 15, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Cambridge NY DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Cambridge NY DMS10 switch (**on or after March 1, 2021**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Cambridge NY DMS10 switch to reflect the Albany NY PEO switch as the new home switch. All ASRs for the Albany NY PEO switch must carry the project code of CMBRNYCMDS0.
