

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

November 20, 2020

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and Operations
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

John Dunne
Manager – Global Network Engineering and Operations
Verizon Wireline Network Operations
999 West Main St., 2nd Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after September 1, 2021

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
LYNBROOK NY DMS-100 Switch	7 Washington Avenue Lynbrook, NY 11563	LYBRNYLBDS0
WILLIAMSBURG NY C20 Switch	55 Meserole Street Brooklyn, NY 11206	NYCKNYWMPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Lynbrook NY DMS-100 switch are associated with CLLI code LYBRNYLBDS0 and will not be repeated throughout this notice.

- All references to the Williamsburg NY C20 switch are associated with CLLI code NYCKNYWMPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Lynbrook NY DMS-100 switch, located at 7 Washington Avenue, Lynbrook, NY 11563, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Williamsburg NY C20 switch, located at 55 Meserole Street, Brooklyn, NY 11206. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers and paging carriers will need to secure new trunk groups built to the Williamsburg NY C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Lynbrook NY DMS-100 switch will be required to reposition the codes to the Williamsburg NY C20 switch.

All ASRs for the Williamsburg NY C20 switch must be received no later than July 1, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Lynbrook NY DMS-100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Lynbrook NY DMS-100 switch (**on or after September 1, 2021**). This will serve to guide interconnect re-routes of traffic for the eighteen (18) native codes currently served by the Lynbrook NY DMS-100 switch to reflect the Williamsburg NY C20 switch as the new home switch. All ASRs for the Williamsburg NY C20 switch must carry the project code of **LYBRNYLBDS0**.
