212-362-1292

Implementation Date: On or after April 16th, 2022

Planned Network Changes will occur at the following locations:

Verizon Central Office	Address	CLLI
Fort Washington PA Oracle Signal Transfer Point (STP)	1050 Virginia Drive Fort Washington, PA 19034	FTWSPAFW22W
Fort Washington PA Oracle EAGLE LNP STP	1050 Virginia Drive Fort Washington, PA 19034	FTWSPAFW97W
Jenkintown PA Oracle STP	100 Greenwood Avenue Jenkintown, PA 19036	JENKPAJK22W
Jenkintown PA Oracle EAGLE LNP STP	100 Greenwood Avenue Jenkintown, PA 19036	JENKPAJK97W

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

Description of the Planned Network Changes:

Verizon will make changes to its Signaling System 7 (SS7) network and services resulting from its consolidations plans. The Oracle STP, located at 1050 Virginia Drive, Fort Washington, PA 19034, will be removed from service and the SS7 traffic will be moved to the Oracle EAGLE LNP STP, located at 1050 Virginia Drive, Fort Washington, PA 19034. Also, the Oracle STP, located at 100 Greenwood Avenue, Jenkintown, PA 19036, will be removed from service and the SS7 traffic will be moved to the Oracle EAGLE LNP STP, located at 100 Greenwood Avenue, Jenkintown, PA 19036. All SS7 traffic to be migrated includes, but is not limited to InterLata (Access/FG/CLEC/IXC), wireless traffic and paging traffic.

Description of Reasonably Foreseeable Impact of the Planned Changes:

SS7 Service providers with SS7 link terminations in Verizon's Fort Washington, PA and Jenkintown, PA Oracle offices will be contacted prior to the rehome to confirm creation of new link terminations in the Fort Washington, PA and Jenkintown, PA Oracle LNP offices. While carriers will not have to submit Access Service Requests (ASRs) as the rehoming will be completed using existing facilities to these offices, the following situations may require ASRs: 1) Carriers may need to add additional links to the Fort Washington, PA and Jenkintown, PA Oracle LNPs if their existing links cannot handle the added signaling from the rehome. This is unlikely for most, but if additional links are required, then the customer will be required to issue ASRs; and 2) After the rehome is complete, carriers will be required to issue ASRs to disconnect their Fort Washington, PA and Jenkintown, PA Oracle links to stop the billing.

SS7 service providers and any other affected carriers will need to alter their SS7 transport, OffNet services arrangements (services obtained from third parties) and/or Gateway services in order to access or continue serving customers served by offices that are currently homed to Fort Washington, PA and Jenkintown, PA Oracle STPs.
