

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

November 15, 2021

**Carrier:** Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

**Contact:** For additional information on these planned network changes, please contact:

Lisa Thompson  
Global Data Network Engineering  
Verizon Wireline Network Operations  
13100 Columbia Pike, Floor 5 Room 505  
Silver Spring, MD 20904  
410-375-9777

John Dunne  
Senior Manager – Global Data Network Engineering  
Verizon Wireline Network Operations  
2147 Route 27  
Edison, NJ 08817  
732-593-4003

**Implementation Date:** On or after November 1, 2022

**Planned Network Change(s) will occur at the following locations in New Jersey:**

| Verizon Central Office       | Address   | CLLI        |
|------------------------------|---|-------------|
| Merchantville NJ 5ESS Switch | 105 East Maple Avenue<br>Merchantville, NJ 08109    | MHVLNJMEDS5 |
| Camden NJ CS2K Switch        | 12 North 7 <sup>th</sup> Street<br>Camden, NJ 08102 | CMDNNJCEPS0 |

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Merchantville NJ 5ESS switch are associated with CLLI code MHVLNJMEDS5 and will not be repeated throughout this notice.
- All references to the Camden NJ CS2K switch are associated with CLLI code CMDNNJCEPS0 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Merchantville NJ 5ESS switch, located at 15 East Maple Avenue, Merchantville, NJ 08109, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden NJ CS2K switch, located at 12 North 7<sup>th</sup> Street, Camden, NJ 08102. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Merchantville NJ 5ESS switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than September 24, 2021 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Merchantville NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Merchantville NJ 5ESS switch (**on or after November 1, 2022**). This will serve to guide interconnect re-routes of traffic for the eight (8) native codes currently served by the Merchantville NJ 5ESS switch to reflect the Camden NJ CS2K switch as the new home switch. All ASRs for the Camden NJ CS2K switch must carry the project code of **MHVLNJMEDS5**.
