

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

August 15, 2017

Carrier: Verizon Pennsylvania LLC, 1717 Arch Street, Philadelphia, PA 19103

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, NJ 08817
732-593-4003

Implementation Date: On or after April 2, 2018

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
TULLYTOWN PA 5ESS Switch	7901 New Falls Rd., Tullytown, PA 19054	TULYPATUDS0
FORT WASHINGTON PA CS2K Switch	1050 Virginia Drive, Fort Washington PA 19034	FTWSPAFWPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Tullytown PA 5ESS switch are associated with CLI code TULYPATUDS0 and will not be repeated throughout this notice.
- All references to the Fort Washington PA CS2K switch are associated with CLI code FTWSPAFWPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Tullytown 5ESS switch located at 7901 New Falls Rd., Tullytown, PA 19054, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Fort Washington CS2K switch located at 1050 Virginia Drive, Fort Washington PA 19034. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to secure new trunk groups built to the Fort Washington CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Tullytown switch will be required to reposition the codes to the Fort Washington CS2K switch.

All ASRs for the Fort Washington CS2K switch must be received no later than March 12, 2018 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Tullytown 5ESS switch, prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Tullytown 5ESS switch (**on or after April 2, 2018**). This will serve to guide interconnect re-routes of traffic for the seven (7) native codes currently served by the Tullytown 5ESS switch to reflect the Fort Washington CS2K switch as the new home switch. All ASRs for the Fort Washington CS2K switch must carry the project code of **TULYPATURP0**.
