In accordance with FCC requirements, Verizon is providing this list of contractors approved to conduct certain make-ready work. This list shall not be construed as an endorsement by Verizon of any these companies. Verizon is not referring these companies to you and is not responsible in any respect for their actions or activities or for any aspect of any business relationship you choose to establish with them. All work on Verizon owned utility poles and joint-use poles must meet all applicable federal, state, county and municipal codes and regulations as well as those found in the most current edition of the National Electric Safety Code (available from IEEE), the Telcordia Blue Book – Manual of Construction Procedures (SR-1421, Issue 4, Nov 2007) (available from Telcordia), the terms of Licensee’s Pole Attachment Agreement with Verizon, the terms of the Joint Use Agreements in effect in your area (available from Verizon), and applicable Verizon practices and procedures. Verizon reserves all rights to modify its list of approved contractors at any time for any reason by posting the revised list to Verizon’s website. Licensee is responsible for ensuring that it has a copy of the most up-to-date list before retaining any contractor for any work.
